HOUSE RULES.

Introduces Resolu-
to Change Committee.

Remove Speaker from
and Enlarge It.

Intended as Blow to
Organization of Body.

WASHINGTON, Jan. 26.—Representative of New Jersey, one of the "insurgents" today introduced a resolution providing for a reorganization of the Rules Committee.

The resolution aims straight at the Speaker and provides that the Speaker shall elect five additional members of the Committee on Rules and Administration and one Democrat and one Republican and three members of the committee, which shall elect one of its members chairman.

The resolution, which, I have said, was introduced today for its object the reorganization of the Committee on Rules and Administration, heretofore of the House, from that committee, said Mr. Fowler, "not to move forward either a want of intelligence or a lack of courage on the part of the Republican party."

Mr. Cannon, when shown a copy of the resolution, said: "I don't know of any law to prevent the House from introducing any kind of a resolution as may see fit."

Mr. Clark, a minority leader, said the resolution would not provide for a sufficient proportion of minority members on the Rules Committee.

Senator Norris, of Nebraska, the leader of the Republican insurrection, said the insurgents stood solidly together in the House.

AMERICAN FLAG SCARCE. A FEW STATES SHIP. WASHINGTON, Jan. 26.—The date of the American flag is made manifest in a report made by the great American flag ship, during a part of the cruise, read at today's session of the National Board of Trade.

The report, extending over a year's time, covering virtually all the ports of the North Atlantic, said that once having seen the flag at sea.

AD MINING ROOMS. WASHINGTON, Jan. 26.—The year's gold mining, was marked by a recovery from the depression conditions for the two preceding years, according to data presented in a report by the United States Geological Survey.

There was a general advance in the price of gold, and a number of new mines and prospects were discovered.

NOT EASY SAILING. WASHINGTON, Jan. 26.—The fact that the bill providing for the creation of an Alaskan legislative body, to be appointed by the President, recently reported from the Committee on Territories, will not be passed by the Senate, was stated today during the hearing on the bill.

Senator Beveridge, who introduced the bill, was compelled to answer a number of questions, and also to answer a number of criticisms as to the bill.

The principal objection was based on the provision for the appointment of members of the proposed body by the President. The President, the Senator who spoke, said, would be able to elect members of the body, but by some there was a feeling of objection to the bill in its present form.

Mr. Wickersham, chairman of the Senate committee on Territories, said that he had no objection to the bill in its present form.

Mr. Wickersham said that he had no objection to the bill in its present form.

SETTLERS TO GET CHANCE.

Would Protect Power Sites from Monopolies.

Garfield Doesn't Approve Ballinger Ideas.

Committee Opposes Bill for Financial Gain.

WASHINGTON, Jan. 26.—James H. Garfield, former Secretary of the Interior, today continued his statement before the Senate Committee on Public Lands in reference to several bills introduced at the request of Secretary Ballinger. Again Mr. Garfield failed to approve of the recommendations of Mr. Ballinger on several important features of the proposed legislation.

Mr. Garfield thought the Ballinger bill relating to the control of water-power sites would interfere with the improvement of lands for the development of power. He declared, however, there should be legislation for the control of any lands valuable for the development of water power so as to prevent monopolies.

The same principle would apply, he said, to coal lands. Discussing the control of public lands chiefly valuable for the development of water power, Mr. Garfield said that conservationists generally recognized that the Federal government has the authority to enact laws for the use of the water, as that control is vested in the States. The only objection, he said, was that the government govern the use of lands adjacent to the water for the purpose of building power plants, which would necessitate cooperation with the United States to obtain the use of the water for any purpose.

According to Mr. Garfield, the government should not weigh down future settlers on these lands in such manner as would prevent them from competing with others who obtained their lands and use of water under more advantageous conditions.

Most members of the committee declared that they are opposed to any bills designed merely to enable the government to get every cent possible out of water-power sites or mineral lands. It is asserted that the committee desires to make it as easy as possible for individuals to settle upon these public lands, and that no legislation should be favorable to the appearance of attacking the policies of Mr. Ballinger by approving in part many propositions he suggested.

MEXICANS SUFFER. UNITED STATES BANK SUSPENDS. INSTITUTIONS IN MEXICO GO TO RECEIVERS.

Concern is Said to Have Extended Too Much Credit to Mexican National Packing Company—Depositors Demand Their Money and Mining Companies Are Without Cash.

WASHINGTON, Jan. 26.—A receiver for the United States Banking Company was appointed today at a meeting of the directors this afternoon, after the institution had failed to open its doors for business today.

The suspension was a bitter disappointment to scores of depositors who had determined to withdraw their funds and had gathered early to do so. Those, among whom were many women, crowded to the doors when the notice of suspension was posted.

Mr. Eliazar, Vice-president of the bank, said the action of the directors was taken because the bank did not have enough money on hand to reimburse the clearinghouse for yesterday's business and could not properly receive deposits. He believed that the bank had more than enough assets to pay every legitimate obligation. He added: "We are considering plans for a reorganization under another presidency."

WASHINGTON BRIEFS.

"Fighting Bob" Bent Home. WASHINGTON, Jan. 26.—Rear-Admiral Robley D. Evans (retired), who since his retirement has been on duty here in connection with the work of the General Naval Board, was today relieved of that duty and ordered to his home. His relief is in accordance with the policy of the Navy Department against employment of retired officers on important active service.

PROTEST AGAINST ARMY BILL. Officers Prepare Circular Letter Asking Senators to Not Pass the Elimination Measure.

WASHINGTON, Jan. 26.—The Post today says: In violation of the same executive order, defiance of which caused the removal of Forester Pinchot, army officers throughout the country, including a number now on duty at the army headquarters at Denver, have prepared a circular letter, addressed to United States Senators and others, in which there is a protest against the provisions of the Army Elimination Bill to be introduced at the present Congress.

Seldom has proposed legislation for the army provoked such general indignation among army officers. The effect of the bill, if it becomes a law, will be that 20 per cent of the lieutenants in service will be immediately retired, since that percentage of the officers under the rank of captain already are more than 24 years of age.

To protect themselves from so serious a breach of discipline, the officers who have prepared the letter will sign it only as "some of those who will be eliminated."

AYMERIC HAS HARD VOYAGE. British Steamer Strikes Monsoon in China Sea and Loses Six Miles in One Day.

WASHINGTON, Jan. 26.—The British steamer Aymeric arrived from the Orient yesterday with big shipments of hemp and cigars from Manila for Seattle and Tacoma, after one of the hardest passages she has encountered since being launched in 1905.

The steamer encountered a strong monsoon with high seas in the China Sea, and during the outward voyage she found gales for thirty days, most of the time with only the hand steering gear in use. For seventeen days the wheel and six Chinese clung to the wheel at all while big seas drenched them, often scattering them about the deck.

One day the steamer was six miles behind where she had been when she started bucking into the gales.

Dr. Lyon's PERFECT TOOTH POWDER cleanses, preserves and beautifies the teeth, prevents tooth decay and imparts purity and fragrance to the breath.

and believe that our embarrassment will be only temporary.

Mr. Eliazar said that a receiver for the bank would be appointed tomorrow. Gossp placed the amount of withdrawals in the run from 2,000,000 to 3,000,000 pesos, or approximately \$1,000,000 to \$1,500,000.

The bank statement on January 1 gave the deposits as \$900,000 pesos, or \$445,000. Most of the stock is said to have been held by residents of Mexico.

The directors' disclaimer previous operations that involved the bank in its present difficulties. The method by which money was obtained by the Mexican National Packing Company was said to have been what is known in banking circles as the "kiting" of drafts on London. Operations in the nature of exchange were not reported to the directors as were loans.

President Harn is still at a sanatorium tonight. He is said to be on the verge of nervous prostration.

John W. DeKay, president of the Mexican National Packing Company, is thought to be in London.

Branches of the United States Banking Company in Oaxaca and Paraiso also suspended today.

CAVE TOO MUCH CREDIT. The direct cause of the suspension was the extending of too large a line of credit to the Mexican National Packing Company. Drafts aggregating more than 4,000,000 pesos, owed by this firm, went to protest last week.

It was believed until late yesterday that Mexican banks would render substantial aid to the United States Banking Company to prevent its suspensions, but when these banks found that the distress of the institution was not due to any panicky conditions of affairs in general, but rather to internal causes, it was decided not to take a hand.

The suspension was the topic of conversation everywhere today but there was no indication that other banks had been affected. Deposits continued as usual, and accounts withdrawn from the suspended bank were distributed among the other banks.

FAILURE STARTS A RIOT. OAXACA (Mex.) Jan. 26.—A riot occurred here today over the closing of the branch of the United States Banking Company in this city. The breach, due to this morning, was much excitement, as practically none of the mining companies can meet their pay rolls.

American business interests are seriously handicapped, and almost every American operator has been caught in the crash. Most of the pay rolls of the company were forwarded today, and this makes the situation doubly serious. Manager Strong declares the bank is solvent and will reopen within a week.

KILLED BY JOY. KANSAS Wins Six-Year Court Fight for \$1000 Check and Dies When He Gets It.

JOHN DIRECT WIRE TO THE TIMES. KANSAS CITY (Mo.) Jan. 26.—(Exclusive Dispatch.) Elated at his victory after six years of fighting in the courts for possession of a \$1000 check, Thomas Wilson, 44 years old, of Merriam, Kan., became so elated that he died of heart disease. He dropped dead from the courthouse with the check in his pocket, which was as he was coming away from the courthouse with the check in his pocket.

Mr. Wilson, of which Wilson was administrator. As he was without heirs, the money came to him. A counter claim for it was put in by a woman who claimed she was Wilson's widow. Wilson was accompanied by his attorney, George H. English, Jr., when he fell to the street unconscious.

Semi-Annual \$10 Suit Sale

Women Are Realizing The Remarkable \$10 Garment Values In This Event at . . . \$10

The enthusiasm and activity which this Semi-Annual Suit Sale at \$10 has been enjoying is a proof that every woman needing a practical suit or dress should inspect the garments in this sale before purchasing elsewhere.

It also proves the buying prestige of the Broadway, for this sale was planned months and months ahead. Close to 200 garments are still available in this offering, and when you stop to consider that not a garment in the entire lot but affords you a big bargain opportunity at \$10, you make no mistake in selecting now.

Every Moment Lessens The Assortment

Therefore we advise you to come at the earliest possible moment.

Here are materials that are serviceable, styles that are practical. Coats are from 32 to 48 inches long; dresses are made of silk and wool. Really it's been the most remarkable \$10 Sale we've ever featured, and that's saying very much.

Demonstration Omo Shields To-Day And Umo Infants' Pants Friday and Saturday

Two products of the OMO Manufacturing Company are on demonstration here this week. THE OMO DRESS SHIELDS are too well known to need much introduction. They are odorless, sanitary and washable. Priced from 19c to 49c, according to size. Demonstration today in Aisle 3. THE OMO INFANTS' PANTS have many advantages over other pants. They are washable and can be ironed. A new process known only to the Omo Manufacturing Company permits this. These will be demonstrated Friday and Saturday on the Second Floor.

Alfalfa, Walnut, Potato and Sugar Beet Lands \$35 Per Acre Up

In the Famous and Prosperous San Jacinto Valley

"Where Things Are Doing" Large Tracts of Land

Now on the market in lots to suit. This is the cream of the valley. Will raise 100 sacks of potatoes to the acre, two crops a year; ten tons of alfalfa per acre per season, that sells for \$10 per ton in the field. Terms, 1-3 cash, balance one, two and three years.

800 ACRES ALFALFA LAND. We are also offering for a few days only, 800 acres, with water, 1 1/2 miles from San Jacinto, at \$85 per acre. This is a snap.

640 ACRES ORANGE LAND. Between San Bernardino and Los Angeles, close to three railroads; frostless, magnificent view, being high and slightly. \$75.00 per acre. Easy terms. "None such." 1000 acres at Winchester at \$55.00. Fine for eucalyptus, alfalfa and fruit. 18 feet to water. 1100 acres at \$60.00 per acre; grain and alfalfa; level as a floor; three houses; vineyard; one house cost \$4000. Easy terms.

Sunday excursions over Santa Fe to San Jacinto, \$3.00 round trip. Have four hours to look the valley over and return to Los Angeles same day. Leave your name at this office or phone before going. Why not go next Sunday? See us for snaps in country acreage.

NEW GLIDDEN TOUR. American Automobile Association Plans Official Run Which Promises to Take Its Place.

NEW YORK, Jan. 26.—A tentative route for the 1910 endurance tour of the American Automobile Association, which will replace the annual tour for the Glidden trophy, has been laid out by the contest board.

The route is through the Southwest, and takes in the following cities: Louisville, Nashville, Memphis, Little Rock, Dallas, Oklahoma City, Wichita, Topeka, St. Joseph, Des Moines, Cedar Rapids, Davenport and Chicago.

The start probably will be from Cincinnati.

TARGETS. DOUGLAS BORES UNUSUAL SCORE.

GOOD TURNOUT OF REVOLVER CLUB EXPERTS.

Members of Los Angeles Pistol Organization Hang Up Excellent Marks in Practice Shoot on Indoor Range—Frazier Gives Veteran a Close Run for Honors.

There was a good turnout of members at the mid-week practice shoot of the Los Angeles Revolver Club at the indoor range on South Olive street last evening. A. B. Douglas, the club champion, bored out a fifty-shot score of 458, with the 22-pistol, a score that will not likely be equaled for some time to come.

Young Douglas made this score in a match with R. J. Frazier, another of the club's leading marksmen. Frazier also made an excellent score of 443. Others who made scores of ninety and better were Dr. Packard, Hubbs and Schroeder.

The scores: Twenty-yard revolver—Will A. Wright, 79, 90, 84, 82; Dr. L. M. Packard, 84, 82, 91; E. G. Richardson, 84, 81, 85; Peter Peterson, 83, 82, 86; A. C. Edison, 69, 66; J. W. Siefert, 81, 86, 81, 83.

Twenty-yard pistol—A. B. Douglas, 93, 97, 96, 91, 91, total, 458; R. J. Frazier, 94, 88, 92, 84, 91, total, 449; Carl Schroeder, 81, 83, 91, 90; C. B. Hubbs, 72, 84, 81, 86; Dr. Packard, 84, 82; I. C. Douglas, 87, 87.

AT THE POST.
George Memic and Frank Picato pit the finishing touches on their training yesterday for their top-round contest at McCarey's Pavilion tomorrow evening.

Memic at East Side did early road work, and in the afternoon he used the gym of the East Side Athletic Club for an hour, and besides exercising with the apparatus, boxed six rounds with Chicago Duffy. Memic weighed 136 pounds after his workout.

Picato at Vernon did his road work in the morning, and later appeared in the ring at Doyle's, and boxed four rounds with Andy Rivers and two with Jim Flynn.

Sam Langford decided yesterday that he would train at a private gym on Stephenson avenue, and in the afternoon he jumped the rope, threw the medicine ball, and boxed two rounds with Bob Armstrong, and three with Bill Pettus. Langford will start today doing regular work, and each afternoon will box at least eight rounds.

Jim Flynn at Vernon did his usual road work, and in the afternoon he boxed five rounds, besides doing all of his regular stunts in the ring.

The full card for Friday night is as follows: George Memic and Frank Picato, ten rounds, 115 at 5.
Charlie Dalton and Al Rogers, ten rounds, 135 at 2.
Andy Rivers and Paul Roman, six rounds, welterweights.
Henry Carcase and Chris Johnson, six rounds, heavyweights.

At the tryout at the pavilion yesterday afternoon several hot contests took place between aspiring young fighters. Young Matway showed improvement, and will be placed on the program soon. Frank Roman, a brother of Paul Roman, was tried out with Eddie Reynolds, both lads showing some class.

Tiburon the Winner.
BAKERSFIELD, Jan. 26.—[Exclusive Dispatch.] E. Courtney Ford's setter Tiburon this afternoon won the all-age stake, the final event in the annual meet of the Pacific Coast Field Trials Club.

Although Lansing Tevis's pointer Sinter and A. J. Moore's setter Kurydice pointed more birds than Tiburon, the latter outpaced and outranged them. Sinter was awarded second honors, and third money was divided between Kurydice and J. W. Flynn's pointer Don. The championship stake was not run.

Broad Outpoints Hinkle.
PHILADELPHIA, Jan. 26.—[Exclusive Dispatch.] Kid Broad outpointed Randy Hinkle in a six-round bout at the Wayne Athletic Club tonight. Broad was the aggressor all through the fight, and tried hard to stop his opponent. In the first round he succeeded in flooring Hinkle with a hard right to the jaw.

AUTOMOBILE GONE.
Owner Inclines to Belief That Criminal Used It in Making Escape from City.
An automobile which belongs to L. H. Mitchell, a real estate man, who lives at No. 1001 South Alvarado street, was stolen last night from in front of a house at No. 609 South Burlington avenue. Mr. Mitchell inclines to the belief that some criminal used it in making his escape from the city.

Orange Cove 35 MINUTES FROM LOS ANGELES

Motor Car Service to Orange Cove

Easier than ever to get to and from Orange Cove. This close-in property is most accessible. Recognizing its importance the Southern Pacific has recently installed a motor car line, which gives quick, convenient service to Los Angeles for Orange Cove residents. This property is only 10 miles from Los Angeles, within easy driving distance. Not only can you raise big crops on this fertile soil, but you can get them to the greatest market in all Southern California in perfect condition. This means the biggest return for efforts expended—a handsome income from your acreage and a handsome profit when you get ready to sell the land.

Frostless Orange Land, With Water, \$200 an Acre Up

The recent cold weather tested out the orange districts most unmercifully. It proved my statement that Orange Cove is frostless. No damage was done whatever, as the perfect fruit in this locality proves. The Orange Cove proposition is a remarkable opportunity to buy close-in, frostless orange land at the price of raw acreage. The water goes with the land—a share of water stock with every acre purchased. And the soil is exceedingly rich, just as good for strawberries, small fruits and berries, and for vegetables, as it is for oranges.

FIND OUT WHAT YOUR TROUBLE IS

Without Its Costing You a Single Penny for Doctor's Services.
DRS. SHORES & SHORES

Want every sick person to take heart, for their disease may not be what they have been led to believe, and may be more easily cured than you think. It all depends on the doctors who know how, and can treat you intelligently, and get you permanently well in the shortest time that the nature of your disease will permit. It's foolish to try to doctor yourself with patent medicines. What you need is medicine prescribed and compounded by a doctor who knows. DRS. SHORES & SHORES have successfully treated all diseases for more than twenty years, and know to a certainty what each case requires. And their fees are the lowest ever offered by reliable specialists—for remember, that Drs. Shores' treatment is the best at any price.

To prove their claims and to convince the most skeptical that all diseases are curable if properly treated, Drs. Shores have extended their generous offer of a

FREE EXAMINATION to all who apply before Jan. 31. We have permanently cured hundreds of people in Southern California and a number of them are willing to testify to the great success of our wonderful new treatment. The examination is free and you are not obliged to take treatment—but when you find out what your trouble really is, you will be more than satisfied to be treated by the doctors who know how.

ONE DEAD, ONE IN HOSPITAL AS RESULT OF PISTOL DUEL.

(BY DIRECT WIRE TO THE TIMES)
COLTON, Jan. 26.—(Exclusive Dispatch.) Ramon Garcia is dead and Jose Rodriguez occupies a cot in the County Hospital, with four pistol wounds in the lower portion of the body, as a result of a duel between the two at Colton this afternoon. D. C. Swartz, a Colton rancher, was an eyewitness to the tragedy.

Garcia was crossing the Santa Fe railroad track just west of Silver Mountain, in advance of Rodriguez, evidently unaware of the latter's presence, when Rodriguez opened fire. His victim quickly wheeled and returned the shot with an automatic, but at the second shot from his as-

GREATER SPEED THAN PLEASANT.

YOUNG BEKINS NOW IN DANGER
OF JAIL SENTENCE.

Arrested on Charge of Severely Fracturing Speed Limit Ordinance With His Automobile in Over Fifty-Miles-an-Hour Spin. Law Mandatory for Workhouse.

Spending along North Broadway at the reported rate of more than fifty-three miles an hour in a big American Simplex car, with a party of friends, M. Bekins, a son of Martin Bekins of the Bekins Van and Storage Company, and agent for the Simplex in Los Angeles as a member of the Bekins-Cory Company, was arrested last night for violation of the speed ordinance. He was unable to give any bail, but the arresting officers, after some discussion, reduced the bail to \$100, which was furnished.

Motorcycle Officers Cox and Gardner say that they were standing near the curb at North Broadway and Daly street when they heard the roar of the on-rushing car three blocks away. The rapidity with which the sound increased, they explained, gave them an idea that somebody was breaking speed limits and would be in the way of the on-rushing car. They started in the direction taken by the alleged speeder. The Simplex, which by then was a flash, and after that was a furious race for nearly a mile.

Bekins showed down his car when he reached the end of the pavement, and the officers were upon him in an instant. They declared that, during the race, their speed indicators showed a pace of between fifty-three and fifty miles an hour right along. Bekins, when asked at the station how fast he had been going, said he did not know, as he could not see his speed indicator, but that he thought that a little burst of speed would be all right. He said that town, where there was a clear road ahead and small chance of meeting anything, so that he could go as fast as he pleased.

THE GAY LIFE OF THE CITY.

BY A CLUBMAN.

The Aviation dinner at the Alexandria Saturday evening promises to be the grandest event, par excellence, of the season. Blowing fair winds or foul, Dave Hamburger will make an ascension in the presence of his fellow townsmen. Other flights will be made by those who have fledge the wings of eloquence, but there will be no endurance contests.

The dinner, given to the committee which made the recent meeting a signal success, is tendered by the representative of the hotel lobby. They have instructed Herr Heichl to go after Paulhan's attitude toward the party, and to make a record in the presence of the feast, and the scheme for decorations, music and menu is as elaborate as it is novel.

There is to be one brass band in the street for the benefit of those who cannot secure seats at the banquet, another in the hotel lobby to entertain the guests of the house and an orchestra in the dining-room. Florida and decorators are working on designs that they hope will go up better than the local inventions at the meet. Vol au vent and numerous other airy dishes are on the bill of fare.

Aside from a little speech by Mr. Hamburger and the presentation of a trophy the programme is to dine well. The dinner begins at 7 o'clock and at 8 the party will march through the streets, headed by the bands, to the Orpheum, to witness the performance.

The Bachelor Ball and the Kirmess will involve society in a gay whirl for a week. A great many dinner parties and auxiliary functions are being arranged. The Alexandria will keep the main dining-room open until midnight on Kirmess nights for special supper parties. On Friday night Avery McCarthy and a number of the bachelors will give dinner there before the ball. This event will be quite as gay as it sounds. There are a great many past grand masters of the order, most comfortably provided with beach-towels of their own, who take quite as much interest in the affair as the eligibles.

It was highly amusing to the few of us who happened to be dining at an adjacent table to see the sufferer from the cold, Mr. Hutton, who came down from Spokane for the Aviation Meet, were entertaining some friends.

Mrs. Hutton is an ardent suffragist. Her acquaintance seemed to be taking the opposite point of view, possibly for the sake of argument. Mr. and Mrs. Hutton have had a picturesque career. Some years ago they were pioneering in Idaho. Mr. Hutton ran an engine and Mrs. Hutton ran a boarding-house. Between them they accumulated enough capital to take a large share in the Hercules mine when it was first opened. Today their income is about \$25,000 a month. This premise explains the "officer" story.

"When I lived in Idaho," she said,

1500 YEARS AGO

A Knight of the "Round Table" Was Made to Say He'd Be—Something Before He Would Have a Soap Factory Set Up in His Palace.

A Trial Package of Stuart's Charcoal Lozenges Sent Free.

You See, Lancelot objected to the odor. But many a human stomach is as bad as a Soap Factory, judging from the odors emitted therefrom.

But This Is All Accidental; no one wants or intends to have bad breath; it's a mortification to one's self and an annoyance to one's friends.

Bad and Offensive Breath comes of wrong conditions of the stomach; the different functions working at variance; pulling different ways instead of together.

But This Is Not a Treatise on the Stomach; just a mere mentioning of a few resulting conditions of a bad stomach such as Flatulence, Indigestion, Sourness, etc., all of which tend to produce a bad breath.

Stuart's Charcoal Lozenges are in evidence here—not as a palliative, a make-shift, but as a permanent POSITIVE CURE. They absorb and correct the acids of the stomach and instead of fermentation taking place, destroying and wasting nutritious products, there is the gentle, natural action of digestion going on, reducing food to its proper aliment.

Which Is Then Conducted in an orderly, natural way to the different parts of the body for its sustenance. But you understand this. This is all "coals to Newcastle" and there is nothing so easy to take as this.

Stuart's Charcoal Lozenges are put up in a box; they are handy to carry, and no trouble to take. Chew one up, drink a glass of water; that is all.

We All Want a Healthy Stomach and a sweet, clean breath, and the very next time you have sour stomach, indigestion, bad breath, heartburn, gastritis, belching of gas or food.

A Bad Taste in the Mouth, due to the drug store and get a box of STUART'S CHARCOAL LOZENGES and try them for your trouble. Mark me, your stomach will feel better, and your bad breath be done away with.

And Let Us Say, even if you have not a bad breath, take an occasional Lozenge as a preventive and corrective of acids and stomach disorders. They are 25 cents a box at the Drug Store.

If You Would Like to see what they are and what they taste like before investing even a quarter, send us your name and address, and a free sample will be sent you. Address the F. A. Stuart Co., 200 Stuart Building, Marshall, Michigan.

CURE PILES. Piles and Hemorrhoids. Under Patent Guarantee. No pain. Inconvenience or loss of time. Send for my Free Book.

DR. C. H. WHITE

Dr. C. H. White's case containing his clothing, a well-trimmed suit, and an insurance policy for \$1000 in the Order of Railway Telegraphers. Lowman hurried to the Police Station to report his loss, but could not give much of a description of the thief. He said that, on his arrival from Bakerfield at 8 o'clock yesterday evening, he registered at the Parker House, on East Fifth street. He then walked out to see the town, and met a thin stranger on South Main street. He was such a very pleasant stranger that Lowman invited him to stay, and the stranger made no objection.

DRUGGISTS' RULE COSTS LIFE. PROVO (Utah) Jan. 26.—The druggists of this city, having entered into an agreement among themselves neither to sell nor give away liquor for sixty days, T. J. Smith was unable to procure whisky or brandy, declared by a physician to be necessary to save the life of Smith's 2-year-old son. The child died yesterday from pneumonia. The prescription which the druggists refused to fill was indorsed by the president of the City Council and one of the Councilmen.

SUCH A PLEASANT STRANGER. A. B. Lowman, an oil driller from Bakerfield, took a stranger for a room-mate last night. He awoke from a short snooze to discover that he had lost his room-mate, together with \$500, mostly in gold; a new cowhide suit case containing his clothing; a well-trimmed suit, and an insurance policy for \$1000 in the Order of Railway Telegraphers. Lowman hurried to the Police Station to report his loss, but could not give much of a description of the thief. He said that, on his arrival from Bakerfield at 8 o'clock yesterday evening, he registered at the Parker House, on East Fifth street. He then walked out to see the town, and met a thin stranger on South Main street. He was such a very pleasant stranger that Lowman invited him to stay, and the stranger made no objection.

S.S.S. BLOOD PURIFIER
Removing the outward symptoms is not all that is required in the treatment of Contagious Blood Poison. The violent general manifestations must be completely driven from the system before a cure can be effected. The least taint left in the blood will later cause a fresh outbreak of the trouble, with all its attendant horrors of ulcerated mouth and throat, copper-colored spots, skin eruptions, etc. Only a blood purifier can cure Contagious Blood Poison. Medicines which merely check the symptoms for a time, without removing the cause, are of no value. S.S.S. is a strong mineral nature, and leaves the poison completely removed from the system. It is a blood purifier, and such treatment. S.S.S. cures Contagious Blood Poison permanently. It goes into the blood, and removes every taint, making the circulation pure, rich and healthy, and thus preventing any further outbreak of the disease. S.S.S. is a blood purifier, and such treatment. S.S.S. cures Contagious Blood Poison permanently. \$1.35 Mirage Dress Silk 95c

Twenty-one pieces just received. Bought under price.  
And mind you it's the genuine Mirage, not a cheap  
imitation—name stamped on selvage of every yard.  
Mirage is without question the most popular, the  
most beautiful and wearable dress silk on the market  
today. It sells the country over at \$1.35 to \$1.50 a  
yard.

Twenty-one new spring colors including black.  
But don't delay, it will not last long. See the  
window display.  
95c

Tailored Waists at 65c

Such a price for tailored waists sounds ridiculous. But  
it is not fair to judge them by that price; a dollar would  
be mighty cheap for them. That, in fact, is the price  
they have been selling at. They are last season's goods,  
but in style they differ not a whit from the coming  
fashions.

MADE OF MERCERIZED WHITE POPLIN, TUCKED FRONT  
AND BACK, LONG SLEEVES WITH DEEP CUFFS.  
ONLY SIX DOZEN IN THE LOT, SO YOU'LL HAVE TO  
HURRY.

Our January Linen Sale  
Is Now In Progress

Housekeepers with a weakness for handsome table linens  
will enjoy going through this line of damasks. Women  
who know linen values are laying in a whole season's  
supply.

\$1.50 BLEACHED DAMASK, 72-INCH, AT 85c.  
\$1.25 BLEACHED DAMASK, 72-INCH, AT \$1.00.  
\$1.00 BLEACHED DAMASK, 72-INCH, AT \$1.25.  
\$2.00 BLEACHED DAMASK, 72-INCH, AT \$1.70.

RANDOME DINNER SETS IN A BROAD RANGE OF STYLES  
AND SIZES, AT PRICES 1-4 TO 1-3 LESS.

11-4 White Blankets \$1.95

The blankets we offer today at \$1.95 a pair were origi-  
nally marked \$4.00. Being soiled and mused from  
showing and window display, we reduced them to \$3.00  
and closed out more than half of them.

Today we will let the remainder go at \$1.95.  
WILL HAVE TO ACT QUICKLY; ONLY ABOUT  
FIFTEEN PAIRS.

Victrolas The Highest Type  
of Victor.

The Victor-Victrola is "The Talking Machine de  
Luxe"—the finest of Victrolas, concealed in a beautiful  
cabinet, without the horn feature. The Victrola is an  
instrument of any drawing-room or music-room. No  
mechanical sounds whatever are audible. The voice  
of the singer is heard as if he were actually singing  
in the room. The Victrola is in solid mahogany, light or dark finish,  
with all metalwork gold plated. The \$250 Victrola  
is similar, but in beautiful Circassian Walnut. The  
new Victrola at \$125 combines all the advantages of  
the higher-priced Victrolas, without the cabinet  
feature. Victrolas may be purchased on terms of \$10  
and up monthly.

\$3.75 Puts Victor and Records  
In Your Home.

Are you enjoying a Victor? Of course you are, if  
you have one of these splendid entertainers in your  
home. If you haven't, get purchased a Victor, do it  
now. This great pleasure can be yours at slight  
expense. By our plan \$3.75 will put a Victor in  
your home. Choose ten selections may be purchased  
on the same basis with an initial payment of only \$3  
for the records. Victrolas \$10 to \$250. Editions \$12.50  
to \$40.

# Los Angeles Daily Times

THURSDAY MORNING, JANUARY 27, 1910.

END OF THE STRING.

## SUDDEN SMASHING OF PARTNERSHIPS.

Sellers of Interests in Nothing Arrested as Criminal Conspirators and Swindlers—Many Victims of Crooked Operations.

AFTER having evaded the law for seven years and operated as the head of what the detective department refers to as a "swindling syndicate," D. M. Greene, who lives at No. 1715 Arapahoe street, was arrested yesterday on a charge of criminal conspiracy. During his recent weird career here Greene appears to have amassed a fortune which he has put in his wife's name. He owns an automobile and is known as a "high liver."

George Clark, No. 2717 South Main street, who admits he is a confederate of Greene, was arrested yesterday by Detectives Mcnamara, Carroll and H. J. Raymond, manager of the Citizens' Detective Agency, at a time when time-honored confidence trick. The joints of successful operation are attributed to the skill used by Greene in choosing his victims.

Alluring advertisements were inserted in the newspapers. These stated that a young man of good habits could buy a half interest in an old and well-established business. The cost of a half interest in the business mentioned was usually set at about \$200. This low figure for something supposedly good drew many young men from the East or out of town places into the clutches of Greene and his confederates. The advertisements promised a fine weekly income of the investment, and the "waiter" in the

D. M. Greene, head of the swindling syndicate, arrested yesterday.

George Clark, one of the victims

Figures in the Alleged Fake-business Swindling Conspiracy

and its breaking up, and two of the places where half interests in nothing were sold for cash by the "syndicate," and the partners immediately "frozen out" to make room for other victims. The "notary public" sign is merely a part of the name of the concern.

office never failed to relate how his partner, who was presumed to have just left, had made his fortune and bought an oil well or a gold mine.

The "long-established and well-known" business concerns were arranged to order and set up for the "sucker."

Wherever there was a vacant store or a spare room on the ground floor of a building it was easy to start a real estate, cigar, or investment business.

The walls were plastered with signs, ready prepared books were brought in to show the tremendous business the concern was doing, and fine furniture was installed to give an air of prosperity.

Either Greene or one of his co-workers would be on the premises smoking high-priced cigars and posing as a man of means. Carefully staged, the swindle was most attractive. Few men with \$200 hesitated to invest it in order to get a steady income of \$35 a week, with a chance for future wealth.

A NEMESIS.

The mistake which led to the final undoing of the syndicate came when they trimmed a man who they thought was a simple farmer. The 5th inst., R. H. Hill was persuaded to enter into business with D. M. Greene in the notary public real estate office, room 215, No. 702 South Spring street. Hill bought a half interest in the "business" for \$250. He was soon "frozen out" and forced to return to his home in Santa Ana. There he stayed for a while and resolved to avenge himself.

He proved a fearless nemesis. He employed the Citizens' Detective Agency, No. 425 1/2 South Broadway, and the latter concern furnished him with a list of names of all the "suckers" who had been taken in. The evidence gathered would fill several large volumes.

Greene would willingly take any amount from \$1 to \$1000 and overlooked no chance to harvest the coin after they had sowed their seed for a crop of what they referred to as "boobs," "come-ons" and "suckers."

SOME OF THE "DEALS."

Some of the most recent partnership transactions of Greene and Clark, who were assisted by the usual gang, have been reported in detail to Deputy District Attorney Veitch.

In May, 1909, J. Houston entered a business partnership with Greene at No. 425 West Seventh street. The concern was known as the Tourist Investment

and its breaking up, and two of the places where half interests in nothing were sold for cash by the "syndicate," and the partners immediately "frozen out" to make room for other victims. The "notary public" sign is merely a part of the name of the concern.

WHO?

## RAILROAD MAN CHIEF, MAYBE.

Seriously Considered by the Police Commission.

But the Door's Still Open to Any Others.

Sergeants at a Prize Fight Given a Jolt.

The hunt for a Chief of Police is still on. Members of the commission said yesterday that the door is still open to applicants and that a choice has not been made. It is admitted that consideration of a serious nature has been given to a former railroad man who comes highly commended to the commission, but his name is withheld. His selection is regarded as a possibility, but not a probability. John Topham is still on the list of probabilities.

It was officially announced that the position will not be given to Dixon, now acting Chief. His transfer to the head of the detective branch is probable, and a visit by Capt. Flammner, now head of this department, to the Mayor yesterday seemed to indicate that something is doing, though none would talk of its nature. It may have been that Flammner received assurance that he is not to be disturbed.

There were also applicants for the office of executive secretary, made vacant by the resignation of Fundergast. But there will probably be no appointment to it, as the commission plans the consolidation of the work of several secretaries and putting it in the hands of a secretary to the Chief. This position is exempted from civil service by the charter. There are now a secretary to the Chief, an executive secretary, a secretary of captains, a secretary of detectives and two stenographers, and the commission may reduce this number and urge the abolishment of the position of executive secretary. This news dismayed many of the applicants.

JOLT FOR TWO SERGEANTS.

The punishment imposed on Sergts. Adams and Hartmeyer for leaving their East Side districts to attend a prize fight was a vindication of the discipline of former Chief Dishman. Efforts were made to let these officers off with light punishment after Dishman was removed, and there was even an attempt to lead the commission to believe they had been persecuted in the testimony last night. But the certainty with which Dishman had acted gave no opportunity for evasion on the part of the commission.

Adams and Hartmeyer pleaded that they had gone to the prize fight outside of their district in the hope of apprehending the hold-ups who robbed a man near Eastlake Park earlier in the evening. They also put up the plea of being continuously on night duty. Hartmeyer looked dubious while he told of four years' service on the force, all at night.

The Mayor expressed sympathy, and Topham said he had tried to induce Dishman to transfer Adams so that he could be at home with his family part of the time at night. It looked good for both until Capt. Lehnhausen said:

"When Hartmeyer was a patrolman he was on night duty by his own selection."

Hartmeyer then said that he had volunteered to work at night when there were hold-ups, and had never been changed. He admitted he had never asked to be changed.

The excuse that both had gone to the prize fight to hunt for robbers in a crowd of low sports seemed amusing to the commission. It became more amusing when Hartmeyer said he had often gone to the fights to find patrolmen who had "left their posts unguarded." Adams admitted that he had been accustomed to going without leave whenever he pleased, but had asked permission of Capt. Lehnhausen because "I thought 'I ought to.'"

Hartmeyer went without permission.

Dixon and Lehnhausen gave both sergeants good records in their testimony. Dixon said Adams is known as "the mysterious man" among street car crews, and that some of them are afraid of him when he boards cars in dark places, believing him to be a hold-up.

The commission consulted only a minute and then imposed a fine of fifteen days' pay on Adams—\$23.88—and a month's pay—\$115—on Hartmeyer.

Speaking for the commission the Mayor said: "This is a serious offense, though there was some extension in these cases. But this commission cannot and will not overlook such things. Hereafter the rules must be obeyed and no officer or patrolman shall absent himself from duty except in the strict line of duty. We are advised that it has been the custom to do these things but it must stop. We are told that detectives and plain clothes men visit theaters when on duty and other amusements and this will not be tolerated. The city is paying for eight hours' work and we have a small force we must employ every minute of that time. The Chief will send this notice out in the bulletin."

The foreign-born S. J. McKenzie was accepted after the commission had decided it would not take offense at his language in saying that his fine and reprimand were unjust and that "as a man he could do nothing but resign after eight years' service. The Mayor thought McKenzie ought to be dismissed.

REVOKING PERMITS.

The merry work of revoking liquor permits continued and the application of L. Harris for the saloon at No. 410 Front street, San Pedro, which had been run in the name of T. P. Roberts, was denied. The permit was revoked Tuesday night. The denial was in line with the promise of the administration that it would reduce the number of saloons in San Pedro as the opportunity offered.

The commission revoked the permit of Lattimer Puckett for a livery stable at No. 233 East Second street because they had rented a room to two Chinese who operated a lottery. They pleaded that the revocation would destroy their business and the commission relented and agreed to reconsider the action Monday night providing the concern could make a "decent" contribution to the Associated Charities.

Tom Savage was sent to defend his saloon at No. 24 North Los Angeles street.

ing.

OFFICERS ARE ELECTED.

MEMBERS OF MINES MEETS.

The annual election of officers and

of the Chamber of Mines was

held yesterday. Immediately after clos-

ing the box the old board of di-

rectors assembled to canvass the bal-

lot. The voting was very tight dur-

ing day, and Secretary Sarnidet

and, associated with it is a further

body of mining ore.

Plans for reorganizing the Black

Butte will undoubtedly be benefited

by this new discovery of high grade.

Hoist Loses Power.

CARSON CITY (Nev.) Jan. 26.—The

Pittsburgh Liberty mill at Masonic

has completed the installation of an

eighty-horse-power gas engine that will

run the entire plant including the

crushing addition.

Although the engine is an eighty-

horse-power at sea level, it will not

produce more than sixty-horse-power at

the Pittsburgh, which is 8000 feet above

sea level. This is the first gasoline

engine of this size that has been run

in this section and it is estimated

that 24 per cent. in power is lost

through the altitude.

## DIRTY KIDNEYS CAUSE BACKACHE

A FEW DOSES OF PAPE'S DIUR-

ETIC MAKE OUT-OF-ORDER  
KIDNEYS ACT FINE.

This Harmless, though Effective,  
Preparation Cleans and Regu-

lates the Kidneys, Curing Lame  
Back or any Bladder Misery.

No Man or Woman Here in Los  
Angeles who Suffers from any

Urinary Trouble can afford to  
Leave this Remedy Untried.

A real surprise awaits every suffer-

er from kidney or bladder trouble

who takes several doses of Pape's

Diuretic. Misery in the back, sides

or loins, sick headache, nervousness,

rheumatism pains, heart palpitations,

dizziness, sleeplessness, inflamed or

swollen eyelids, lack of energy and

all symptoms of out-of-order kidneys

simply vanish.

Uncontrollable urination (especially

at night), smarting, offensive and dis-

colored water and other bladder mis-

ery ends.

The moment you suspect kidney or

urinary disorder, or feel any rheu-

matism, begin taking this harmless

medicine. With the knowledge that

there is no other remedy, at any price,

made anywhere else in the world,

which will effect so thorough and

prompt a cure as a 50-cent treatment

of Pape's Diuretic, which any druggist

can supply.

It is needless to feel miserable and

worried, because this unusual prepa-

ration goes at once to the out-of-order

kidneys and urinary system, distribut-

# EXPANSION SALE

The fact that our plans did not work out as we had anticipated gives you this chance to buy furniture at these surprising discounts. We had contracted for 10,000 additional feet of floor space to be ready by this time. The carpenters are behindhand and the furniture to fill the space is here. Huge storage charges are piling up every day and we are obliged to make room at whatever sacrifice.

The public realizes that these bargains are genuine and you must act at once to take advantage of them.

**\$5.75**  
Brass Costumers

Regularly \$7.50  
Of stable design made to bear any weight; bright satin or polet finish, steel finish.

**\$5.75**  
Oak Rockers

Regularly \$8  
Perfect comfort combined with graceful lines, quarter-sawn, fumed oak, Spanish leather cushion, heavy and durable.

**\$12.85**  
Library Table

Regularly \$16.50  
Giving an air of repose to a room; 28x42 inches, with a roomy drawer and shelf.

**\$2.65**  
Dining Chair

Regularly \$3.25  
Of beautiful lines and splendid workmanship; golden oak with genuine black leather seat.

**\$8.85**  
Golden Oak Dressers

Regularly \$13.50  
Obviously designed by an artist; of beautiful finish and plainly the result of honest, painstaking labor.

**\$3.35**  
Blankets

11-4 wool-finished blankets; full, double bed size; blue or pink borders; always sold at \$5.00. A heavier quality blanket, in the same large size, at \$5.50. 11 Wool Fiber Rugs, 9x12, \$7.25.

Leather Hand Bags

At One-Fourth Less Than Regular Prices

A strong feature of our Semi-Annual Clearance Sale for today will be the offering of a lot of fine hand bags, regularly priced from \$18.50 to \$38.50.

At One-Fourth Less Than Regular Prices

This offer includes large and medium sized bags of the very finest makes, in pin seal, mat seal and walrus. The frames are unusually artistic and represent the newest effects in pompeian gold in nugget design, oxidized silver in novelty floral effects, and etched copper and gold.

Colored Leather Bags

From \$10.50 Up at One-Fourth Less

There is a diversity of styles and colors in this lot of bags, including hand tooled and painted effects that are novel and beautiful.

Kid Gloves

At Clearance Sale Prices

To rapidly close out broken lots in styles and sizes, we offer today.

Values to \$1.50, in 2-clasp Glace Kid Gloves, in various shades. Especially large assortment of size 5½, but the sizes range up to 7. All perfect gloves.

Regular \$1.35 Biarritz Gloves, 8-button length, with strap at wrist. Sizes 6¼ up to 7. Shown in tans and white.

None of these sale gloves will be exchanged or taken back.

Spread It On Thick

You cannot get too much of this delicious syrup.

Its flavor is exquisite and it is as wholesome as it is good.

Towle's Circus Brand Table Syrup

is a combination of Sugar Cane Syrup, Corn Syrup, Honey and Maple Syrup, with a rich maple flavor; and when once you try this famous syrup, you will never have any other.

Buy a can today and give the family a treat.

If you wish a beautiful After-Dinner Coffee or Tea Spoon, cut this advertisement out and mail it with your grocer's name and ten cents to the Towle Maple Syrup Company, St. Paul, Minnesota, and they will mail you the spoon.

You can also get a series of fine animal cut-outs for the children by using Towle's Circus Syrup.

Ask your grocer about this.

## Los Angeles Daily Times

Pronounced Los-ANG hay-als.

Vol. 57, No. 55. Founded Dec. 4, 1881.  
Daily, Weekly, Sunday. Twenty-ninth year.  
Every Morning in the Year.

THE NEWS—Our Associated Press service covers the globe, transmitting over 25,000 words daily, not including special telegrams.

TERMS—Daily, Sunday and Magazine, 75 cents a month, or \$2.00 a year, in advance. Single copies, 5 cents.

TELEPHONE—Editorial, 222; Advertising, 223; Circulation, 224; Business, 225; News, 226; Telegram, 227; Printing, 228; Delivery, 229.

ADVERTISING—Rates and conditions on application. Special rates for long term contracts.

AGENTS—For the sale of the paper, apply to the publisher or to the local agent.

POSTAGE—This paper is paid for as second-class matter, under special rate of post office.

THE PAPER—Is a far larger bona-fide circulation than any local paper. The circulation is substantial, trustworthy and is the largest of any paper in the city.

OFFICES—Times Building, First and Broadway.  
Branch, 531 South Spring Street.

Entered at the City Postoffice as mail matter of the second class.

## Editorial Points

Platform of the Goo-Goo administration: "Raus mit 'em!"

Comet "A 1910" is as welcome to California as the other tourists.

Count Zeppelin's new airship will be 984 feet long. Well, there's lots of room in the sky.

"Forbear and eat no more!" cried Orlando in the play. But he was a fellow who could live on love.

The abolishment of the duty on hides has resulted in higher prices for shoes. Back to the good old tariff!

There is a demand for "uniform divorce," but we think the country would prefer unanimous divorce.

We believe that there is not now a sanatorium in Europe which has not the distinction of harboring Dr. Cook.

Mr. Taft is naturally a peacemaker, willing even to go to the extent of firing an official occasionally in order to have peace.

Another famous novelist is mixed up in a divorce suit. The artistic temperament may as well be regarded as hopeless.

It is reported that F. Aug. Heinze has returned to Butte, Mont., to begin life over again. In the same old way, of course.

It makes no difference to the Goo-Gos that a first-class man has been ousted for no cause from the office of Chief of Police.

Photographs find no sale in China, which fact only increases the respect we have always had for that wise and ancient people.

Lots of people in America have been so deeply interested in British politics that they can almost tell which side Mr. Balfour is on.

The advocates of war are fond of saying that peace means stagnation. Notice any stagnation in this country at the present writing?

A Chicago editor says that the hen has done more for this country than the eagle. Not the hens we have had on our hands this winter.

Her Majesty, the Empress of Japan, has written a poem the first line of which reads: "Waga mi ni wa." It sounds a good deal like Browning.

Our ambassadors in foreign countries want permanent homes. Perhaps, however, it would be better to wait until we have permanent ambassadors.

A London dispatch states that John Redmond has consented to allow the imperial Parliament to continue its existence. Good, old generous-hearted John.

Flour is as high in proportion as meat, and when you get down to plain alfalfa you've got to pay pretty stiff for it, too. The only way out of it is to fast.

"It has been clearly demonstrated that the glorious climate of California is also good for raising airships," shouts the Cleveland Plain Dealer. You bet!

A Chicago woman asks a divorce from her husband because he is in the habit of running to fires. It seems, however, that he makes an exception of his own fireside.

In a speech delivered during the present campaign Lord Curzon made the assertion that "all progress in civilization has come from the aristocracy." The snob!

The term "British Isles" can properly have reference only to Scotland, England and Wales. And yet those countries form but a single island. It's a funny term to use.

The day is past when the people could be frightened by the appearance of a comet. The only thing that can scare the people now is the appearance of something they can't see.

Wales, Scotland and Ireland standing like a stone wall against the House of Lords proves again that blood is thicker than water. There is at least an understood Celtic alliance.

The "Sinn Fein" party which was wiped off the map at the Irish elections was simply an organization of boycotters. Can it be possible that the Irish have become conservative?

"Tonight I lay the burden by," sings a Pittsburgh poet. It probably means that he has resolved to leave his new poem on the editor's desk while the editor was out getting a drink.

A Chicago minister advises every married man to buy a house and put it in his wife's name. He forgets that it isn't every married man, by a blessed sight, who has the price of a house.

A bee makes 23,000 journeys in order to collect one pound of honey in the hive. We don't know who the man is that figured this out, but we are free to say that he must have had plenty of time on his hands.

The returns from overseas indicate that there will be a revival of the famous ballad beginning with the immortal lines:

"Ireland was a nation  
When England was a pup."

## GOVERNMENT BY GOODNESS AND THE POLICE CHIEF IT WANTS.

It will be difficult, 'tis feared, to find a new Chief of Police who will come up (or down?) to the standards set by the local discoverers and inventors of "good government." Government by goodness is so new to this city that it may be well to pause here and issue a warning to the candidates for the star of the Chief of Police.

Let them rush in unawares, seeking the job as of old, let them understand that a new king is in Jerusalem and that new standards and new requirements have been set for this as for other public offices.

Mr. Dishman, for instance, would have been considered an ideal Chief of Police under the old, unscientific system of government. He did his duty impartially and without favor; he gained the respect and obedience of the men under him by his strict fairness and square dealing, and met the public with courtesy but with both eyes open and neither one of them winking behind his hand.

Many citizens of this community considered that those characteristics just about made up the picture of an ideal Chief of Police. We will imagine how distressing such ignorant notions must be to the elect, and we sympathize to the extent of our understanding. We can only beg of them to be patient with the old-fashioned citizen until he adjusts himself to the new ideas.

Judging hastily from the temporary selection of a Chief to supplant Dishman, many people have assumed that Dishman failed because he has never had the advantage of having been a fair dealer in a gambling hell. But this cannot be entirely correct. There are further requirements. If these were the sole qualifications, the honor and the office would undoubtedly have been bestowed upon Mr. Nick Oswald, whose high seat as an advocate of "good government" is well known and appreciated. His eminence in the particulars mentioned, coupled with his services for the "cause," would easily entitle him to first consideration.

But other elements, it seems, enter into the composition of the perfect "good government" police chief. He must be something like Mr. Kipling's "Shut-Eye Sentry." It is not so much that he should be able to see. The point is that he must know what to see. Rather what not to see.

A plain man like Dishman, of course, was hopeless. Dishman only saw what he saw. Arrested those who broke the law, etc. Sometimes he arrested the wrong ones—that is to say, those whom it was "wrong" to arrest because they were "right" with Mr. Lusser's card-index system of good government. Sometimes, no doubt, he didn't arrest the right ones hard enough.

As hinted by the experts on good government, Mr. Dishman was "not in sympathy," that is to say, he was not "in on" the card-index list. He was known to be positively rough with Nick Oswald's ambitions to open up the "district" again.

Before we can drink the real nectar of good government we must have these asperities softened. The note of harmony must be struck. The police department and the card index must be put in tune. We must—you know—how shall we say—eliminate these discords. Mr. Dishman was a discord. He is a square, keen, first-class battler in the man of action—The Times knows it, for he was connected with this paper for eleven years—but he was a discord.

To be quite candid about it, Mr. Dishman "fell down," although the public did not see how. It will have to be admitted, even by his friends, that he had a complete misconception of the duties of his office. He had an idea that he was a sentinel duty to protect the public. Poor old-fashioned Dishman! He didn't understand that the "good" Chief of Police is not a sentinel, but a whip. His function is to see that cigar-stand men and saloon-keepers and café proprietors who control votes are persecuted to the end of the chapter if they do not swing the votes "right."

The main use of a police force under "good" government is to make the political opponents feel the lash; to reward, by the shut-eye, the faithful who voted "right"; to be a terror to the man who dares defy the card index.

So far as we can see, however, the good-government experts on goodness are having some difficulty over the job.

The main use of a suggestion. In the University of California is an eminent scientist. His name is Prof. Loeb. After long research and years of experience he has been able to create life in jelly-fish and other invertebrates. Prof. Loeb can take a gob of wobbly muck of jelly, turn on a battery and make it a living thing. Of course this is just a suggestion. There may be something in it.

In conclusion, we can't forbear to remark that the beginning of the career of good government by the good is something of a shock; just at first, you know.

But it must be all right. This MUST be the way to have real "good" government. These are the gentlemen who know how. Only we didn't know it was going to be like this.

We didn't look for goodness and virtue to crop out in that place. We were watching for wrong hole. We didn't expect it to begin with the discharge of the best Chief of Police Los Angeles ever had, without charge, complaint or excuse, and the substitution of a graduated sport.

Truly, the ways of Reform, like those of Providence, are past finding out.

## AN AMERICAN BLUSH.

More than \$3,200,000,000 was the amount of American foreign commerce in 1909, and less than 10 per cent. of it was carried in American ships.

A total of 25,888 vessels, of 7,388,755 gross tonnage, constitutes the American merchant marine, but only 1600 of them (and 665 of those barges) of 874,323 aggregate gross tonnage are engaged in foreign trade.

And look at this humiliating fact! Only five years between now and the completion of the American Panama Canal, when shipping activity will greatly increase, and not a single American vessel built in America or any shipyard's last year for engagement in American trade around and across the seas!

Over \$13,000,000 worth of American products and manufactures sent to our own Philippine Islands last year, and over \$12,000,000 worth of Philippine products sent home (that is, to our shores), a total trade of \$25,000,000, and almost every dollar's worth of it carried in foreign ships. Shame, shame!

Only one vessel flying the American flag (exclusive of warships and military transports) passed through the Suez Canal in 1908, and that was only a little one of 626 tons; while 192 foreign vessels giving United States ports as ports of destination made the journey through the canal from the Red Sea to the Mediterranean Sea, or vice versa.

There are 11 foreign steamers plying in and out of New York harbor for every American steamer. We are paying millions yearly to keep up New York harbor for the benefit of foreign ships.

Of 64 vessels recently bound for San Francisco, including coastwise traders, only 18 were flying the American flag, and of these 18 9 were coastwise traders and 1 a government transport.

Of 21 freight carriers recently heading for Puget Sound ports in competitive trade, only 2 were American, the other 19 being foreigners.

In competitive freight-carrying trade into San Francisco, foreign ships outnumber American ships by 46 to 10.

Recently 24 ocean vessels were inbound for Portland, Or., and not one was American. The Honolulu Advertiser says: "Bound for the

## SHOWING HIS HAND.

Hawaiian Islands (American owned) from Baltimore, Newport News, New York, Norfolk, Hamburg, Hobart, Newcastle, Iquique and Rotterdam are 20 vessels. Of these, 7 are British steamers, 1 a British ship, 1 a German ship and 1 a German bark, 1 a French bark; and the other 7 are American, 5 barkentines and 1 bark. Why no American steamers?

The bald fact stares us in the face that out of the 4918 visits by foreign ships to Brazilian waters in 1908 only 10 were by American ships, and even that was 3 less than the year before and many less than in any year since merchant vessels flying the Stars and Stripes practically forsook the high seas. Six very large steamers were added to the German-Brazilian fleet last year. The figures are from the London Times, an undoubted authority on world shipping.

All over the United States merchants' associations, boards of trade, chambers of commerce, branches of the Marine League (made up of business men, iron exporters as well as importers), commercial clubs, and progressive societies of every kind, are heartily and vigorously crying "shame" and indorsing the country's slogan, "We must have ships; we must vote mail subsidies!"

The Merchant Marine League of Louisiana says: "No relief can come to the merchants, manufacturers and farmers of the United States until the American flag may be found floating from merchant vessels on every sea and in every foreign port."

The National Association of Manufacturers, a most influential body, has adopted resolutions urging on Congress the immediate passage of an ocean mail law providing for sufficient postal compensation to establish a swift and regular service in American built, American owned and American run steamships to the principal countries of South and Central America, and to the ports of Australia, Japan, China and the Philippines.

American Industries says: "The demand for an adequate American ocean merchant marine is based upon a purely business view of conditions. The average American manufacturer not only believes in the fact that a great fleet carrying American mails and American cargo to foreign ports will mean an increased foreign trade and increased production of American domestic goods extending through innumerable channels. Beyond this, of course, is also the increase of our prestige as a nation."

At the beginning (July 1, 1909) of the current fiscal year we had 100 American steamships actually engaged in European trade, only five in trade with Asia, and not one with South America below the Caribbean Sea, or with Australia or Africa. That is why only \$258,657,000, or 9.5 per cent. of our \$2,721,000,000 foreign trade of 1909 fiscal year was carried in American ships, says Secretary of Commerce and Labor Charles Nagel.

The Secretary also says: "For effective competition in foreign trade any one of several of the great British and German steamship companies is better equipped than the entire steam fleet (only 575,226 tons) in that trade under the American flag. If a change in our policy of restricting the national register to vessels built at home would remedy this situation, few would oppose such a change. It is significant, however, that during the past year three of our trans-Atlantic steamships, built in the United States, were transferred to the Belgian flag." The remedy, and the only remedy, is protection in some form or other to the American shipping industry in the same way that all our other industries are protected and thereby aided and made profitable to the entire community.

At the present time foreign governments are aiding their own shippping to the extent of \$46,000,000 a year. Few of our people realize the weight of that handicap on American ocean shipping.

Up to 1890, says the Commissioner of Navigation, our helplessness as a naval power was a possible explanation of our failure to provide an adequate American ocean mail system (American ocean-going marine), but that reason no longer holds.

The harmonious action of men of all political beliefs in Congress we now rank as a naval power of the first class, and there is nowhere evident the disposition through niggardliness to lose that rank. The very fact, however, that that rank has been attained must raise questions in the minds of thoughtful men as to the future of our sea power.

"Can this navy be had without restoring the merchant shipping?" asked that eminent authority, Capt. A. T. Mahan, U.S.N., a few years ago in his "Influence of Sea Power Upon History," page 87.

In 1908 we paid \$1,228,000 (increase over 1907 of \$329,000) to foreign ships for carrying American mails, and \$1,467,000 (decrease \$199,000) to American ships. Why? It must be remembered that the steamships of the great maritime powers—England, France, Germany and Japan—are, by their contracts, constituted parts of their respective

navies in the event of war. In other words, American ocean-mail money which should go to American ships is going—\$1,500,000 a year and certain to be increased under present conditions—to foreign ships, and helps them to be ready to act possibly against us.

The expenditure of \$1,467,225 in 1908 represents the entire amount paid by the Federal government to American merchant ships, either in the form of subsidies under the act of 1891 or for ocean mail pay. Of this amount \$191,969 was paid to the steamship line to the Isthmus of Panama and the railroad, both owned by the government. Our government, unlike any other government at the present time, maintains its own army transports, and either builds its own colliers for the navy or chartered foreign colliers," says the Commissioner. Just think of it! This great country of ours being obliged to "charter foreign colliers." We heard a whisper of that in the Spanish-American War. An adequate ocean marine would give us all the colliers or other supply vessels needed at any time. Even for the sake of our naval prestige and efficiency alone, "we must have ships; we must vote mail subsidies."

## WATERWAYS FOR BUSINESS.

We like the tone of the report submitted to Congress on Monday by the National Waterways Commission. It indicates that the members of this commission have an eye to business. They seem to be practical people. The commission points out that when the government spends money on the improvement of the streams it is to be entirely repaid by the business which is developed upon a river straightened it is because there is transportation to be had on that stream which will pay a fair profit upon the investment at a fair rate for the service done, and this is to be without looking askance at some other common carrier and his rates, whether they are too high or too low.

Another proposition in this report entirely to our liking is one which aims by legislation to prevent a railroad from doing to the waterway what the waterway is not to do to the railroad. If the government is to improve watercourses for transportation purposes because there is a demand for such service without any regard to what the railroads are doing, it is only common equity that the railroads be not permitted to carry on a cut-throat competition in order to drive the waterways people out of business and have a monopoly in the hands of the other carrier. It might seem at a casual glance as if this could not be. The cost of carrying goods by water is so much less than by rail that it might appear that no railroad could do the service at so low a rate as to destroy its competitor. Although not referring to natural watercourses improved for transportation uses, it is a fact that the railroad companies in Ireland render the canal system, built at public expense, utterly useless by an arrangement of tariffs which at competitive points are too low to permit the canal to be operated, the losses here being made up by excessive tariffs on other parts of the roads. The commission proposes a law which will prevent railroads from lowering tariffs to such a point as to put the watercourse companies out of business and then raising them to recoup themselves. If a railroad lowers a rate on any commodity this law would prevent an increase of that rate except upon a showing to the Interstate Commerce Commission in which it would appear that the proposed increase had nothing to do with rival carriers.

This commission, which has studied the matter so carefully, says that the only way to make water traffic possible is by the establishing "of harmonious relations between the railroad and water lines." The two systems would not work so much in antagonism or rivalry as they would in a helpful combination.

Furthermore, we see wisdom in the opposition of this commission to the formation of another board to take this affair out of Congress and handle it in an independent or semi-independent manner. We have too many boards, too many commissions more or less independent of Congress already. This policy is almost always found to result in an attempt of the board or commission to ignore Congress. It brings contentions between Congress and the board and creates discord in the government service. A Congressional committee is the best kind of board and the best kind of commission to handle nearly all these affairs.

There are minor details most admirably set out in the report of the commission. They urge that the States be called upon to cooperate with the Federal government in the work of improving the streams in the several States; that great care be taken not to yield to local demands which would result in the creation of a multitude of ports where one good one would be more advantageous to the people than ten poor ones; that where improvements are to be made to rivers and harbors the

local population, so vitally interested, be required to furnish wharves and terminals in order to make the work done by the State available.

**Opportunity.**  
I seek for none,  
I knock at no man's gate,  
I sit alone,  
Enthroned in regal state.  
Ten thousand pass,  
Unheeding me and mine;  
One kneels; his glass  
I fill with magic wine.  
—(C. G. Blandin, in Century)

## UNCLE WALT, WARNER.

It was a bent and withered man, thin as a frozen grave with all his gray hair, who muttered, with his wintry tongue: "I am the old, the young, the children, the schools; they come to me among the stable steeds and nodding plumes, the dubs; from lowly huts with crooked beams from palaces with sculptured halls, from the country lanes, from the great cities, from the slums, high and places low, they come to me." A stranger stalked across the land, where a host of boys, "Uncle Walt," said he, "and when I see even the sexton must obey—so come with me!"

(Copyright, 1909, by George M. Blum)

## THE MEAT STRIKE.

By sucking a soup-bone and practicing Science on our stomachs, we may be able to beat the beef trust. (Detroit News.)

Reduction of the price of pork chops in land, where a meat boycott is in progress, appear to indicate that the nine-dollar meat what chopfallen.—(Omaha Bee.)

The strike against meat may not be so wise in that it involves self-denial at the same time may be enervating, but if it has begun is persisted in for any considerable time it will have a sobering effect on the tory packers.—(Pittsburgh Courier.)

Nevertheless the meat boycott is a good thing, and a general public protest against the meat breakfast food, then used by the Moines Register and Leader.

By refusing to buy any meat we may be able to beat the beef trust. (Kansas City Star.)

The boycott on meat in many cities is good for the health of the boycotters, and they will jump for a bone when the strike is over.—(Portland Oregonian.)

## MEN AND THINGS OVER.

Beet Sugar in England.

The beet-sugar industry has been so successful in England, that a small beet-sugar factory has been established in the first plant of its kind in the United States. Arrangements have been made to erect a plant in the Sleaford district to grow beets for five years, and it is expected that the first crop will be ready for export in 1911. The plant is to be owned and operated by the Sleaford Beet Sugar Co., which is a subsidiary of the Sleaford Beet Sugar Co., Ltd., of London.

The largest shipbuilding establishment in the world, the Mitsui Bishi, founded in 1857. In 1884, however, it was sold to Baron Iwasaki, its present owner. It is now known as the Mitsui Bishi Shipbuilding Co., Ltd., and is one of the largest shipbuilding establishments in the world.

King Albert of Belgium is the only foreign monarch who has ever done work as a soldier. He has served in the Belgian army for the last four years he has carried out his military duties as a soldier.

Everywhere a reporter's card, day after day, is being sent to the various authorities, and according to the cognate name, devoid of any real representative and reporter of a newspaper devoted to maritime matters.

While many of the foreign governments called attention to their obligations to the fact that at one time the French government had incorporated a company into the French empire, which was to be a mining and industrial company, and which was to be a mining and industrial company.

- Half price for any of our scarfs, centerpieces and pillows of imported cloth, embroidered with Grayona, the new vegetable fiber silk.
- All scarfs, centerpieces and pillows stamped on imported cloth, to be embroidered with Grayona, at just half price.

**ARE WELL PLEASED.**  
Excursionists from North Will Remain in Southern California as Long as Possible.

The excursion of the Spokane-Walla Walla commercial organizations practically ended yesterday, with the arrival of a number of the visitors at San Diego. Many remained in Los Angeles, however, and it is expected that some will remain the rest of the winter in Southern California. From previous excursions from the Northwest, this city has gained at least thirty permanent residents.

Before leaving on the San Francisco trip Secretary Wiggins of the Chamber of Commerce advised his special "Boosting Committee" to follow the trail of the northerners with a view of getting some of them to locate here. Judging from expressions of several of the Spokaneites, they would be slow to return home, if their business interests did not need attention.

This time 229 persons took advantage of the low round-trip fare to journey to Southern California, and many more would have come if the committee could have secured additional cars. It is probable that the Los Angeles Chamber of Commerce will run an excursion to Portland, Seattle and Spokane within the next year or so. The Spokane commercial organizations have extended a cordial invitation to visit that city and doubtless every city in the Northwest will join in the invitation when the excursion becomes an assured fact.

**Novelty Spring Woolens**  
For tailored garments, separate skirts, girls' dresses and like garments no wool goods will be better this spring than the following:

- Nub hopsackings in champagne, lavender, mustard, sky, green, gray, navy and rose, 50 inches wide, \$2.25
- New grays in herringbone and diagonal weaves—steel, medium and pearl shades; 58 inches wide, \$2.50
- Half silk and half wool Colson Poplins in a full color range, 42 inches wide, \$1.50
- Reed's Lansdowne (half silk, half wool), 42 inches wide, \$1.35

**Gloves to Fit All Hands**  
Probably one of the reasons for the popularity of this Glove Section among women who appreciate the finer details of good dressing, is the fact that we don't confine ourselves to the selling of one particular line of gloves, but we buy in great enough variety to fit all styles of hands:

For example, perhaps you've a short, broad hand—certain French gloves won't fit you at all; but a German make is exactly what you need; and if you've a slender hand, you can best be fitted with an Italian or a French make. So we carry representative stocks from the world's best makers, in wide variety, and fit your hands according to their individual requirements.

At \$1.50 we've five or six different makes and styles; so on in every price, and we guarantee and fit all gloves.

**Spring Suits Arriving Every Day**  
**Guaranteed Skirts \$5**  
Just yesterday morning were these handsome guaranteed petticoats unpacked; it's well-nigh impossible for us to keep pace with the demand for them:

Here now in every color, with black and white, and in changeable shades, too; good lengths, every skirt finished with cotton dust ruffle, splendidly tailored, and accompanied with an absolute guarantee for satisfactory wear for three months, or you receive a new garment in its place. Your choice . . . . . **\$5.00**

**50c Pillow Tops 35c**  
Investigation of reserve stocks has brought to light the fact that there are a quantity of odd pillow tops in handsome stamped designs that ought quickly to be closed out to keep stocks in good shape; so you've an unusually good opportunity for saving:

Stamped pillow tops on linen and art ticking, in conventional, floral and other patterns; tapestry tops, with backs, all ready to slip a pillow into; these in dozens of patterns of various shades; all of them good value at 50c and previously marked 50c. Choose now at . . . . . **35c**

**SEEKING PROTECTION FOR WINDOW WASHER**  
Councilman Andrews to Ask for Ordinance Requiring Safety Devices

The necessity for an ordinance requiring safety devices for the men who are required to wash the outside windows and who work on narrow ledges far above the street, is to be called to the attention of the city council next Tuesday by Josias J. Andrews, one of the members of the legislative committee.

At the present time there is no such ordinance on the city's statute books, notwithstanding that there have been numerous accidents, one of which resulted in a death only yesterday.

In most of the large Eastern cities it is a misdemeanor for a window washer to take his position without being strapped into a heavy leather belt which is attached by chains to rings imbedded in the outside walls at each side of the window.

The spectacle of men clinging precariously to the edges of windows and stories or more above the sidewalk is common in Los Angeles. The constant danger is not only to the window washers who may be dashed to the sidewalk but to passing pedestrians who may be struck by a falling man.

### MAN'S DEATH IS AGONIZING.

#### STYCHNINE FOLLOWING DRINKING SPELL.

President of Visalia for Forty Years Commits Suicide at Lemoore. Furniture Is Cause of Sitchnine-Fight Lawyer—Small Amount for Widow of Miller.

REDACTED, Jan. 26.—Fred Warner, well-known Visalian, was discovered lying in the agency of death along with the People's warehouse in Lemoore, at 3 o'clock Monday morning, by Night Watchman Felthouse. Warner, who had contained sitchnine, was immediately removed to Lemoore hall office, but died twenty minutes later in great agony. Warner was a resident of Visalia for forty years, and was held in high esteem. It is reported that he was a victim of sitchnine after excessive indulgence in wine. He was connected with the People's Den region, and was in Lemoore on a short layover.

Aquest was held by Coroner J. Warner this afternoon and at its conclusion the remains were shipped to Lemoore, where the funeral will be held on Wednesday. The cause of death was sitchnine, of which he was a member. Warner was 64 years old and unmarried.

**BITTERLY FOUGHT.** Aquest was rendered a decision in favor of defendants in the case of R. J. Turner vs. Frank Stouffer, John Carver, Lillian Platter and John Carver. The suit involved possession of furniture, which the plaintiff alleged defendants appropriated fraudulently when they left on the steamer, Hotel expired. The case was bitterly fought, with three attorneys on each side.

**TRIVIAL ALLOWANCE.** The court has granted a monthly allowance of \$10 to the widow of the late James Miller. The estate of the late James Miller is involved in a maze of litigation, owing to two contests of will. The portion for allowance was granted by both contestants. The sixty-eight pupils of the grammar school who took the annual examination, forty-one passed. A strong wind prevailed here yesterday and did some damage to trees and loosely suspended signs. A few small trees, the law the waters of Tulare Lake, which banks on the north side, but damage was slight.

**CUTTING.** BARBER LEAVES WOUNDED HEART.

WANTED ALSO FOR GETTING MONEY BY FRAUD.

Widow in Porterville Is the Cont. Defendant Union Arouses Much Local Interest—Figures of Freight Wreckage Show Growth of City—School Improvements.

PORTERVILLE, Jan. 26.—Harry A. Smith, a former barber of this city, is wanted by the police here on a charge of obtaining money under false pretenses. It is said he left this city recently, leaving in his wake a small debt and an unpaid account.

Health came from the East some time ago and secured employment in local barber shop. Shortly after he began to pay marked attention to Mrs. Mary A. Johnson, widow of a local merchant, and was accused of a comfortable bank account. Smith asserted that he, too, was a victim of independent means, but was progressing in his wooing to a point where he had met. Then Smith had been set. Then Smith had been set. Then Smith had been set.

**MUSICAL.** People were present last night at the first meeting of the Porterville Chorus. It is anticipated that many more will be available when the chorus is organized. The chorus is a singing of "The Chorus" from "Tannhauser." The chorus is a singing of "The Chorus" from "Tannhauser." The chorus is a singing of "The Chorus" from "Tannhauser."

**FREIGHT RECORD.** Statement of the volume of business of the Southern Pacific in the year of 1909 of 20 cars of goods. During the last year the port from Porterville and 192 cars of merchandise.

A detailed statement which has been furnished to local business men is that the volume of business of the Southern Pacific in the year of 1909 of 20 cars of goods. During the last year the port from Porterville and 192 cars of merchandise.

**SCHOOL PLANS.** Plans for the new building made by the school board of this city to spend about \$100,000 on new buildings and grounds. It has been planned to build a new school industrial building, and a new school building. The school board of this city to spend about \$100,000 on new buildings and grounds.

### will be added also, which will be open to all students. The sum of \$20,000 was spent in addition to the schools last year, but the added accommodations have been completely filled owing to the rapid increase in the population.

#### Free lectures. All about the Great San Joaquin Valley at The Times Branch Office, 531-533 Spring st. Information any time through the day. Lecture at 8 o'clock every evening (except Sunday.) Come and bring your friends.

### OPINIONS VARY. TWO QUESTIONS ARE PUZZLING.

#### BAKERSFIELD PREPARING FOR SPECIAL ELECTION.

Supreme Court Will Be Asked to Settle Matter in Connection With Consolidation With Kern—City Officials and Citizens Are Not Agreed Upon Certain Points.

BAKERSFIELD, Jan. 26.—The Bakersfield City Trustees have framed an ordinance calling a special election for April 19 to choose officers for Greater Bakersfield to complete the consolidation of Bakersfield and Kern for which the people of the two cities voted on December 21. Before the election is held a suit is to be filed for the purpose of carrying to the Supreme Court several questions of law on which citizens of the two towns are not fully agreed.

One question is whether the consolidated city should take the fourth or the fifth class charter; another is whether the Bakersfield Trustees, in calling the coming election, have power to divide the territory now included in the town of Kern into wards, and what steps are necessary in the reorganization of the Bakersfield and Sumner (Kern) school districts in connection with the consolidation.

Bakersfield, being at present a city of the fifth class, has a City Board of Education, while Kern, being in the sixth class, is included in Sumner school district, which takes in a great amount of outside territory. City Attorney Platts has expressed the opinion that the consolidation of the two towns and the election of a City Board of Education either under the fourth or the fifth class charter, would result in a conflict of authority between the new board and the trustees of Sumner school district.

In the election proclamation, the draft of which has been submitted to the City Trustees, the City Attorney provides for a city of the fifth class, divide the city into wards, but leaves the question of whether the Trustees are to be elected from their respective wards or at large in some doubt. He does not provide at all for a Board of Education.

Anticipating in general the action of the City Attorney, private citizens have employed Attorney E. L. Foster to file a suit, which, it is understood, will be friendly, to test the legality of the proclamation, and, if possible, settle all the disputed points.

**REVIVAL MEETING.** Beginning next Sunday night, six churches, the Methodist Episcopal, the South Methodist, the Congregational, the Presbyterian, the Christian and the Baptist, will unite in revival meetings which will last for at least three weeks. The Armory, one of the largest halls in the city, has been engaged for the meetings, and all this week preliminary prayer meetings are being held by the churches interested. Evangelist Armstrong, who conducted meetings in Kern in the fall, will be in charge of the union revival.

**LOSES HOME.** A disastrous fire visited the west end of the lease owned by the Petroleum Company Sunday night, and destroyed the home of Mr. Thompson. The fire occurred shortly after dinner. The family had left the building to visit in another part of the field. It is a mystery how the building got on fire. A force of carpenters have commenced the erection of another building, which will be rushed to completion. The loss is heavy one. No insurance was carried.

### SUGAR SUIT CONTINUED.

New Company May Be Organized and Compromise Effected—Recent Visalia Land Entries.

VISALIA, Jan. 26.—The case of the Linder Hardware Company of Tulare against the Pacific Sugar Company, the trial of which was to have begun in the Superior Court this morning, was continued for two weeks, with the consent of the attorneys for Linder. It is stated that strong efforts are being made in Los Angeles to straighten out the affairs of the sugar company, and, if this is done, all bills will be paid, and the corporation put on a strong financial basis. A new company will probably take over the affairs of the old company. Under the conditions, the suits against the old company, of which there are a number now pending, will be compromised or dismissed.

A private telephone line is to be built between Visalia and Cutler, a distance of fifteen miles. This line will be built by John Cutler. The Farmers' line between Visalia and Hager, a distance of sixty-six miles, one of the longest in the valley, is soon to be improved with a second wire running through Woodlake to the mountain town.

### LAND ENTRIES.

In the Visalia Land Office, Lester Pierce has made homestead entry for lots 2 and 3 in the southeast quarter of the northwest quarter and southwest quarter of the northwest quarter of section 4-12-28. DeMitt Morse of Bakersfield has made homestead entry for the northwest quarter of section 14-26-28. Arthur M. Austin of Bakersfield has made homestead entry for the southeast quarter of section 14-26-28. Milton P. Popp of Maricopa has made homestead entry for the southeast quarter of section 18-22-28. Clara L. Anderson of Visalia has made desert land entry for the southeast quarter of the southeast quarter and the south half of the southwest quarter of section 20-32-25.

### CAUGHT IN CANADA.

BAKERSFIELD, Jan. 26.—Fred C. Downey, who, it is alleged, absconded from Burbank, last November, with \$100,000 belonging to the Southern Pacific and Wells Fargo companies, while acting as agent at that place, has been arrested at Sudbury, Ont., and will be brought back for trial. Downey, it is claimed, is also wanted in Texas on a similar charge.

## Imitation Vanilla is Poisonous!

It not only impairs the flavor of your desserts, but it harms your digestion as well. Burnett's Vanilla is not only absolutely pure and healthy, but it gives a rare, rich, delicious flavor that is decidedly different from any other extract. It costs no more than the ordinary vanilla. Insist upon your grocer sending you Burnett's Vanilla.

#### WELLS FOR IRRIGATION.

Creameries of Tulare Present Good Reports—New Depot Assured—Prosperous Year Forecast.

TULARE, Jan. 26.—A battery of four wells for irrigation purposes has just been completed for E. Burr of Los Angeles on a quarter section of land west of this city, recently purchased by him. Two of the wells are each only fifty-seven feet in depth, and two go to a depth of ninety-seven feet. The four are joined and suction applied by a No. 7 pump, run by a twenty-five-horse-power engine. The flow, as measured by a civil engineer, runs from 175 to 180 inches, sufficient to irrigate the entire tract. Mr. Burr has other unimproved lands in this vicinity which will be developed.

#### CREAMERY REPORTS.

At the annual meeting of Tulare Co-operative Creamery, held Saturday, a board of directors was elected. The manager's annual report showed a total of sales of \$301,000. The average price of butter fat during the year was 22.15 cents. The increase in business was 14.000.

The first meeting of the Dairyman's Cooperative Creamery Association was held on Monday. This is a new institution, making the fourth creamery in this city. Its building is completed and the association expects to have all the equipment installed ready for business by February 15.

M. L. Weigle, a prominent farmer, fruit grower and dairyman of this neighborhood, in danger of losing one of his legs. Several days ago while on the lower floor of his tankhouse, the great tank, with its weight of water, came crashing down. Mr. Weigle's leg was caught in the jam. His physician fears amputation will be necessary.

#### NEW DEPOT SURE.

H. V. Platt, general superintendent of the Southern Pacific Company, was here from Los Angeles a few days ago and he corroborated the statement heretofore given out that Tulare is to have a handsome new passenger depot, as well as a number of improvements in the yard tracks.

#### WORK BEGINS ON THE FRESNO-HANFORD INTERURBAN RAILWAY—PROMOTER USES THE SHOVEL.

FRESNO, Jan. 26.—In the presence of about 150 people, F. S. Granger, promoter and general manager of the Fresno-Hanford Interurban Railway, turned the first shovel of dirt on that road, about a mile and a half north of Selma, yesterday afternoon. The new road will pass through Fowler, Selma, Kingsburg, Laton and Hanford.

The Supreme Court handed down an opinion yesterday declaring constitutional the Holden, local option law, which has been attacked on almost every provision since its passage.

#### ABOUT HYOMEL

A Bottle Costs Only 50 Cents—A Complete Outfit Including Inhaler \$1.00.

When Hyomel is guaranteed to cure catarrh or your money back, what is your answer?

Are you satisfied with your condition, or do you want to rid yourself forever of vile catarrh, with its humiliating symptoms, such as itching, splitting, blowing and bad breath? Hyomel is a simple, antiseptic medicine, that you breathe through a small pocket inhaler over the parts affected. It is made of Australian eucalyptus mixed with other germ killing and membrane-soothing antiseptics. Get a complete outfit to-day. It only costs \$1.00, and contains everything necessary to cure any ordinary case of catarrh. Extra bottles if needed, 50c. Hyomel is the best remedy in the world for sore throat, coughs and colds, croup and bronchitis. It gives wonderful relief in two minutes. For sale by druggists everywhere. Mail orders filled by Booth's Hyomel Co., Buffalo, N. Y.

#### PENCIL POINTS

Artists require the best of pencils and a wide range of degrees. The pencil that most completely meets their requirements is the "KOH-I-NOOR". The leads, whether hard, medium or soft, are so perfectly tempered and compressed that the points rarely break. Seventeen degrees, accurately tested. There are imitations. Get the genuine.

#### THE "KOH-I-NOOR"

10 cents each, \$1.00 a dozen. Made in Austria. Sold and used everywhere.

No More Cold Feet

Poor circulation of the blood, nine times out of ten, is the direct cause of Cold Feet. Electropodes stimulate the circulation—and make cold, clammy feet warm and dry.

## A NEW ELECTRIC TREATMENT

Electropodes are metal insoles, worn in the heels of the shoes. One is a negative and one a positive plate. The body becomes the battery, the nerves the connecting wires—over which a gentle flow of electricity passes, building up the entire system.

### WHAT THEY CURE

Rheumatism, Neuralgia, Headache, Kidney Trouble, Backache, Weak Heart, Sleeplessness, Lumbago, Stomach and Liver Complaints are positively cured by Electropodes—or money refunded.

Electropodes are mailable. If your druggist cannot furnish them, send us \$1.00 and we will see that you are supplied. In ordering, state whether for lady or gentleman.

Dr. Ng Toy Kee 801 Harrison St. Oakland, Cal. TO WHOM IT MAY CONCERN—I hereby certify that I am completely cured by Dr. Ng Toy Kee from a severe attack of tuberculosis. I used all kinds of medicine without results and gave up until I heard of this Chinese doctor. I gave him a trial and found I had at last obtained the only physician capable of doing what no other doctor could do. I was coughing day and night, expectorating blood, losing sleep and hardly able to work. After being treated by Dr. Ng Toy Kee a few months I was entirely well and will answer any communications sent me regarding my cure. Respectfully, J. P. AUG. SCHNOOR, 1871 Felton St., Berkeley, Cal.
